## Foster and Kinship Carer Chaplain Selection Criteria

- 1. Fostering Hope and Anglican Health and Welfare are Christian organisations. What is your faith story? What faith community do you currently belong to?
- 2. Fostering Hope's work cares for children growing up in out of home care and supporting carers on their journey is a privilege. What is your understanding of the carer journey?
- 3. What are your chaplaincy qualifications? Experience?
- 4. Describe your style of chaplaincy and why this would work in this role?
- 5. Describe your written and literacy skills.
- 6. In this role you are part of a team and need to work on your own. What experience do you have working independently? And as part of a team?

## **About Fostering Hope**

**Vision**: Fostering Hope exists to reflect Christ's love by supporting at-risk children, and those who care for them.

## Mission

- 1. To offer hope to children by giving them a vision of life beyond their current circumstances.
- 2. To encourage Australian churches to respond to the urgent and God given mission of fostering in their community, and to inspire and invite Christians to open their homes to at-risk children.
- 3. To provide regular and ongoing prayer, support and training to those who are caring for at risk children.

**Values**: Fostering Hope has four core values that influence all our work. We are Christian, child focused and believe in the importance of community.

- 1. We are Christian: We are committed to the belief that each of us has been rescued by God, in Christ, and adopted into His family. Having been rescued and adopted we are then encouraged and empowered to live a life which follows Jesus' example of loving and accepting the vulnerable and powerless, and so we commit ourselves to prayerfully doing the same.
- 2. We are Child-focused: We are committed to finding the best possible home for every child and young person who needs one, where they will find belonging, hope, and an opportunity to thrive. We are committed to listening to the voices of children and young people to influence and shape our practice. We believe that the most vulnerable members of our society are children and young people who do not have protection from their parents. It is for those children and young people that we exist.
- 3. We are Community-building: We are committed to creating a community which provides spiritual and practical support to carers and those for whom they are caring. We do this because caring for vulnerable children requires a larger community than one individual family unit. Further, we are committed to encouraging churches to support foster/kinship families and the children in their care.
- 4. We are other-centred: We are committed to living out our faith not only in what we do but also in how we do it. We seek to emulate Jesus in our manner and internal attitude, as well as our actions, by putting others before ourselves. We are passionate about always behaving with integrity, kindness, respect, humility, and grace with each other, and all those whom we meet.
